Re: Metallix Refining Inc.
251 Industrial Boulevard
Greenville, North Carolina
EPA ID#NCD095119210

Dear Sir/Madam:

Please accept this FOIA request on behalf of Metallix Refining Inc.

On March 20, 2019, the United States Environmental Protection Agency conducted a RCRA Compliance Evaluation Inspection at Metallix Refining Inc., located in Greenville, North Carolina. As a result of alleged deficiencies observed during the inspection, the Agency has proposed to assess penalties against Metallix.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552, Metallix hereby requests that the Agency provide the undersigned with the penalty matrix(ices) prepared by the Regional Office pursuant to the RCRA Civil Penalty Policy, and all other documents that refer to or support the amount of the penalty that the Agency has determined is appropriate for the violations alleged against Metallix. Metallix requests the foregoing documents in order to properly defend itself in this matter and to verify that any penalties assessed for the alleged violations have been properly calculated in accordance with the June 23, 2003 Memorandum entitled "Revisions to the 1990 RCRA Civil Penalty Policy."

Please contact me should you have any questions concerning this request and thank you for your anticipated cooperation.

Very truly yours,

Steven T. Singer, Esq.

REC-100

1986-1987
1988-1989

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion. The number of people aged 65 and over is expected to increase from 200 million to 400 million. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.
